The Honourable Todd J. McCarthy  
Minister of Environment, Conservation and Parks  
CollegePark, 5<sup>th</sup> Floor  
777 Bay Street  
Toronto, ON M7A 2J3

Dear Honourable Minister McCarthy,

Please be advised that the following resolution was passed by the Council of the Town of Ingersoll at its meeting held on December 8, 2025:

**Moved by Councillor Bowman**  
**Seconded by Councillor Hutson**

**THAT** the Council of the Corporation of the Town of Ingersoll receives the correspondence from the Upper Thames River Conservation Authority regarding Bill 68 as information;

**AND WHEREAS** the Conservation Authorities Act (1946) enables municipalities to establish local conservation authorities, and when municipalities choose to form such authorities, they assume responsibility for governance and funding through the appointment of a Board of Directors and the provision of an annual levy to cover expenses;

**AND WHEREAS** the Town of Ingersoll established the Upper Thames River Conservation Authority with other consenting municipalities within the watershed. (initially formed in 1947)

**AND WHEREAS** local municipalities currently provide approximately 35% of total conservation authority funding, while the Province of Ontario provides approximately 2% (2026 budget);

**AND WHEREAS** municipalities have governed and invested local rate payer funds in their respective conservation authorities for decades, tailoring programs and services to local watershed needs, maintaining accountable service standards, and ensuring fair and predictable costs for ratepayers;

**AND WHEREAS** conservation authorities collectively own and manage thousands of acres of land. Many of these properties were entrusted to the

UTRCA for long-term protection, stewardship, and the public good, with the expectation that such lands would be cared for by locally governed conservation authorities;

**AND WHEREAS** Bill 68 (Schedule 3) proposes the creation of the Ontario Provincial Conservation Agency, a Crown corporation that would assume governance responsibilities and consolidate Ontario's 36 conservation authorities into seven regional authorities, with municipal cost apportionment yet to be defined;

**AND WHEREAS** the Province already possesses the authority to establish overarching legislation, regulations, and standards through the Conservation Authorities Act and the Ministry of the Environment, Conservation and Parks;

**NOW THEREFORE BE IT RESOLVED THAT** the Council of Town of Ingersoll calls on the Government of Ontario to maintain local, independent, municipally governed, watershed-based conservation authorities to ensure strong local representation in decisions related to municipal levies, community-focused service delivery, and the protection and management of conservation lands;

**AND FURTHER THAT** while the Town of Ingersoll supports provincial goals towards consistent permit approval processes, shared services, and digital modernization. It does not support it through imposing a new top-down agency structure creating unnecessary cost, red tape, and bureaucracy, undermining efficiency and responsiveness to local community needs;

**AND FURTHER THAT** the Town of Ingersoll supports efforts to balance expertise, capacity, and program delivery across the province, and requests that the Province work collaboratively with municipalities and local conservation authorities;

**AND FURTHER THAT** the Province respect the roles that Municipalities and Conservation Authorities play in conservation and governance;

**AND FURTHER THAT** a copy of this resolution be sent to:

- The Ontario Minister of Environment, Conservation, and Parks;
- local MPPs;
- Association of Municipalities of Ontario;
- Rural Ontario Municipal Association;
- area Indigenous communities;
- all municipalities;

- Conservation Authorities; and
- Conservation Ontario.

Kind regards,

*Julie Clayton*

The Honourable Natalia Kusendova-Bashta  
Minister of Long-Term Care  
Province of Ontario

January 14th, 2026

Dear Minister Kusendova-Bashta,

I am writing on behalf of Council for the Municipality of Calvin Township regarding Calvin's long-standing request to withdraw from participation in the Cassellholme Board of Management.

Calvin Township is a small Northern municipality with approximately 250 households and limited fiscal capacity. For several years, Council and residents have consistently expressed concern that continued participation in the Cassellholme governance structure is no longer reasonable, sustainable, or aligned with the needs of our community. This position is supported by several specific and verifiable factors.

First, Calvin Township is geographically isolated from Cassellholme. The facility is approximately 50 kilometres from Calvin's municipal office, and for some residents the distance exceeds 60 kilometres. Some of this travel is on gravel roads, and there is no public transportation available. For seniors and families, meaningful access to the facility is often impractical. As the Province continues to discourage driving by seniors over the age of 75, placement at Cassellholme can result in effective and permanent separation of elderly couples who have lived together for decades. Council believes that, where feasible, home care or more local options are more humane and consistent with community-based care principles.

Second, Calvin Council is acting under a clear and documented democratic mandate. In 2021–2022, a petition requesting that Calvin Township be removed from the Cassellholme Board of Management was signed by 284 of approximately 400 adult residents. The petition was delivered to Nipissing MPP Vic Fedeli and read into the Legislative Assembly. Council's actions reflect the expressed will of a strong majority of our residents.

Third, Calvin's financial exposure has reached a level that has demonstrably harmed the Township's operational capacity. Calvin's share of the Cassellholme capital financing is approximately \$2.3 million, with operating levies over the 30-year amortization period expected to be of similar magnitude.

These obligations have already had real-world consequences.

On June 21, 2025, a major storm caused widespread damage throughout Calvin Township and

Samuel de Champlain Provincial Park. Calvin's Fire Department led rescue operations that resulted in the evacuation of approximately 300 to 400 campers, many of whom were injured or trapped. Roads and municipal infrastructure were severely damaged, with total costs estimated at approximately \$500,000.

Calvin did not have sufficient reserves to absorb these costs and sought to increase an existing line of credit from \$200,000 to \$500,000. The Bank of Nova Scotia declined the request and rescinded the existing credit after reviewing Calvin's financial statements, which now reflected an additional liability of over \$1 million associated with the Cassellholme capital loan. Despite meetings involving the Mayor, CAO, municipal affairs officials, the bank, and auditors, the credit was not restored. Although the Province expedited a Municipal Disaster Recovery Assistance application, no funds have been received more than seven months later. If a similar event were to occur again, Calvin Township would face a severe financial crisis.

Council is deeply concerned that a provincially imposed governance structure has impaired the Township's ability to respond to emergencies and protect public safety.

Fourth, Calvin bears significant long-term financial risk without meaningful governance control. Council opposed the 2022 decision to rebuild Cassellholme on its existing site at a total cost of \$121 million, the 30-year amortization period, and the calculation of interest on the full project cost despite a substantial provincial contribution. These decisions proceeded over municipal objections, leaving Calvin responsible for outcomes it could not meaningfully influence.

Finally, Council wishes to address a broader legislative concern. Provincial legislation has consistently recognized that participation by small Northern municipalities in long-term care governance is discretionary and subject to special permission, reflecting the financial difficulty such participation creates. This principle appears in the Homes for the Aged and Rest Homes Act, the Long-Term Care Homes Act, 2007, and the Fixing Long-Term Care Act, 2021. However, once a municipal Board of Management is established, there is no statutory mechanism for withdrawal, despite the fact that Boards have historically been altered or dissolved through regulatory action. This creates a structural inconsistency that leaves small Northern municipalities permanently bound to obligations the legislation itself was designed to limit.

Calvin Township has repeatedly sought meetings with successive Ministers to discuss these issues and was recently advised that a delegation request at the upcoming ROMA Conference could not be accommodated. In light of the prolonged absence of resolution, Council respectfully requests clarity.

Accordingly, Council requests either:

1. Ministerial approval for Calvin Township to withdraw from participation in the Cassellholme Board of Management; or

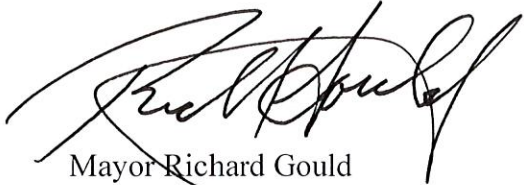

2. Written reasons explaining why such authority will not be exercised in Calvin's case.

Calvin Township seeks a reasoned decision after years of good-faith engagement. Council remains willing to participate in constructive discussions but requires certainty to plan responsibly for the safety and financial stability of our community.

Thank you for your attention to this matter. We look forward to your response.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Richard Gould', written over the printed name.

Mayor Richard Gould

On behalf of Council

The Municipality of Calvin Township

Dear Mayor Gould,

Thank you for your correspondence outlining the concerns raised by the Municipal Council for Calvin Township regarding its participation in the Nipissing East Board of Management, which supports Cassellholme long-term care home.

The Ministry of Long-Term Care is aware of the financial and governance concerns raised by Calvin Township in relation to its participation on the Board of Management, including financial obligations, as well as pressures associated with emergency response costs and damages resulting from a major storm in June 2025.

The ministry continues to evaluate options related to Boards of Management. Any potential change in municipal participation would only be considered where there is unanimous agreement among the Board of Management and member municipalities, in addition to a transition plan for the home's sustainability. This would include how remaining member municipalities would absorb any resulting apportionment impacts to support the ongoing operations of the long-term care home.

With respect to the financial pressures resulting from the 2025 storm, I would encourage you to continue working with the Ministry of Municipal Affairs and Housing and have copied my colleague, the Honourable Rob Flack for his awareness.

I appreciate your continued partnership and advocacy on behalf of your community and residents. The ministry recognizes the important role municipalities such as Calvin Township play in supporting the delivery of safe, high quality, and resident-centred long-term care, particularly in small and northern communities.

Sincerely,

A handwritten signature in black ink that reads "Natalia Kusendova".

Mayor Gould's Response to the Minister Kusendova-Bashta

Dear Minister Kusendova-Bashta,

Thank you for your letter responding to Calvin Township's concerns regarding its participation in the Nipissing East Board of Management and the operation of Cassellholme.

Calvin Council has now considered your response at its recent meeting. Council appreciates the Ministry's acknowledgement of the financial, governance, and emergency-response pressures facing small northern municipalities and values the opportunity to continue this dialogue.

As part of its deliberations, Council passed a resolution directing staff to obtain independent legal advice to better understand the legislative framework governing municipal participation in Boards of Management, including the options available to municipalities where participation has become unsustainable. This review is intended to provide clarity and ensure that any further discussions with the Ministry and our municipal partners are informed, constructive, and grounded in a clear understanding of the applicable legislation.

Once this work is complete, Council would welcome the opportunity to follow up with the Ministry to discuss next steps.

Thank you again for your correspondence and for your continued attention to the concerns of northern municipalities.

Sincerely,  
Richard Gould  
Mayor, Township of Calvin

Re: **Transportation of High-Level Radioactive Waste on Our Highways  
Register Your Community's Concern by February 4th**

Earlier this week a [federal review](#) of the Nuclear Waste Management Organization's plan to transport, process, bury and eventually abandon all of Canada's high-level nuclear waste in northwestern Ontario was launched, with the first [comment period](#) closing on February 4th. Over these next several weeks it is important that municipalities register their interest with the Impact Assessment Agency of Canada and comment on the [Initial Project Description](#) now posted on the IAAC web site.

Of key importance: the NWMO is seeking to exclude the transportation of the high-level radioactive wastes through from the impact assessment process. In effect, that is excluding the concerns and voices of central and northeastern Ontario from the federal review. For us, it will be all risk, no reward, and not even the opportunity to have the impacts on our communities assessed in the federal review (expected to get underway in 2028).

Brief background: on November 28th 2024, after a multi-year siting process, the Nuclear Waste Management Organization (NWMO) [announced](#) that it had selected the Revell site between Ignace and Dryden as their intended destination for all of Canada's high-level nuclear fuel waste, coming from nuclear power generating stations in southern Ontario, Quebec and New Brunswick.

This may not seem like a pressing issue for municipalities in central and northeastern Ontario, but it is absolutely an issue on your doorstep: The NWMO estimates that transportation of the current waste inventory will require **2-3 trucks per day** for more than 50 years. Those trucks will be travelling through or near your community as they make the (on average) 1,700 km trip from the reactors in southern Ontario (Darlington and Pickering Nuclear Generating Stations just east of Toronto the Bruce station in Kincardine in Bruce County) and the even longer distances from reactors in Quebec and New Brunswick.

There is substantial public concern with nuclear waste transportation because of the ongoing risk from the low levels of radiation that will be emitted from each shipment, and because of the risk of larger releases under accident conditions. The public rightfully expects this major component of the project to be thoroughly evaluated during the public assessment process.

In August 2025, the NWMO made it known that they were seeking to have transportation of the radioactive wastes excluded from the project's impact assessment process. However, for 20 years, the NWMO has been describing transportation as part of their project, and the Impact Assessment Act requires that activities that are integral to - or, in the language of the Act "incidental" to - the project be included in the assessment.

## Impact Assessment of NWMO's Project Proposed for the Revell Site

On January 5th the federal review of the NWMO's nuclear waste project was initiated when the Initial Project Description (IPD) was [posted](#) on the Assessment Agency's website and a 30-day comment period began.

Initial Project Descriptions are the first document filed by a proponent in a [federal Impact Assessment Process](#), and the information included must meet specific requirements. During this first comment period, feedback on the Initial Project Description should focus on whether enough information was provided. This is an initial project description and not a full impact statement (that comes at a later stage, currently expected to be filed in 2028) but should provide a comprehensive description, identifying all project activities and potential impacts (and how impacts are to be avoided or reduced).

Significantly, the NWMO has excluded long distance transportation from their Initial Project Description, consistent with their ambition to have transportation excluded from the impact assessment process.

### **Next Steps**

As part of the current phase of the impact assessment process – referred to as the “planning phase” – comments on the Initial Project Description are the first step. Following that, the Impact Assessment Agency will release a “summary of issues” that should reflect what they heard during the comment period, and the NWMO must respond to that summary. Following that a set of draft guidelines (the guidelines will serve as instructions to the NWMO for their preparation of the Impact Assessment Statement) and there will be a second and final comment period for this phase of the process. We will write again when the comment period on the draft guidelines is announced; we expect it will be in the spring this year.

Here are three steps you can take as a potentially impacted or concerned municipality:

- Email the Impact Assessment Agency and let them know your municipality wishes to be added to the distribution list for the Impact Assessment of the NWMO's project (Ref. #88774) (email [nuclearwaste-dechetsnucleaires@iaac-aeic.gc.ca](mailto:nuclearwaste-dechetsnucleaires@iaac-aeic.gc.ca))
- Provide comments on the Initial Project Description by February 4<sup>th</sup>. We'll be sharing more analysis in the coming weeks to support you in preparing comments, but your comments do not have to be long or complex; they can simply state that as a potentially impacted municipality you fully expect transportation to be assessed in the federal review process. You can post your comments to the review registry [HERE](#).
- Many municipalities have already passed resolutions opposing the transportation and burial of nuclear waste in northern Ontario, and we encourage all municipalities to take this step (in updated template is [HERE](#)).

Please let us know how we can assist you. We would be pleased to provide you with additional information and analysis, either through presentations to Council or more informally.

Thank you for taking the time to read through this detailed letter and the [backgrounder](#) on nuclear waste transportation.

Sincerely,

Brennain Lloyd

## MEMO

**To:** DNSSAB Community Partners  
**From:** Melanie Shaye, Chief Administrative Officer  
**Date:** December 12, 2025  
**Subject:** Upcoming Organizational Change – Coordinated Services

---

### Purpose

This memo provides information about an upcoming organizational change within the District of Nipissing Social Services Administration Board (DNSSAB) designed to improve service delivery for clients across the District.

---

### Background

In June 2025, DNSSAB received recommendations from the KPMG Organizational Review, which highlighted the need for stronger collaboration between Ontario Works (OW) and Housing Services.

Key data points highlighted in the review include:

- 82% of individuals in the 2024 Point-in-Time (PiT) count were on social assistance (OW or ODSP).
- 56% of clients receiving DNSSAB rent supplements are on social assistance.
- 54% of people on the social housing waitlist are on social assistance (16% OW; 42% ODSP).

The review also identified opportunities to:

- Formalize collaboration between homelessness programs and OW.
- Explore more client-centred service delivery approaches.
- Strengthen cross-program collaboration.

The decision to move forward with the recommendations of the review is also informed by DNSSAB's Strategic Plan, ensuring alignment with long-standing organizational priorities.

## What's Changing

With the upcoming retirement of Michelle Glabb, Director of Ontario Works, DNSSAB will merge Ontario Works and Housing Services into a new department called **Coordinated Services**.

This change will:

- Align with DNSSAB's strategic priorities.
- Improve collaboration and streamline services for clients.

## Leadership Structure

- Director of Coordinated Services: Stacey Cyopeck
- Manager of Ontario Works: Aimie Caruso
- Manager of Housing Services: Tyler Venable
- Manager of Homelessness and Coordinated Services: A new position will be posted soon.

---

## Timeline

Transition will begin in January 2026.

---

## Acknowledgement

We recognize that change can be challenging. Thank you for your continued support as we work together to strengthen services for those most vulnerable in our communities.

**Re: Motion Regarding the Saugeen Valley Conservation Authority**

At the January 5, 2026, Regular Council meeting for the Town of Saugeen Shores, the following motion was passed:

**Resolution 010-2026**

**Moved by:** Councillor D. Myette

**Seconded by:** Councillor R. Stack

**Whereas** the Saugeen Valley Conservation Authority "The Authority" was established in 1950, 75 years ago by a group of municipalities, as a response to problems associated with flooding; and

**Whereas** the Town of Saugeen Shores is the single largest member by apportionment in this collection of 8 member municipalities, comprising of the main channel and mouth of the Saugeen River at Southampton. The Town of Saugeen Shores is the largest contributor of annual levies that cover the operation of the Authority; and

**Whereas** the member municipalities cover 44% of the operational costs of the SVCA, 7% coming from the Provincial funding and the remaining is generated through internally generated revenue and permitting fees; and

**Whereas** the fees charged by Conservation Authorities have been frozen for 3 years which has had the effect of shifting the financial burden onto levies and by extension the property tax payers; and

**Whereas** the Provincial Conservation Authorities Association (Conservation Ontario) has and continues to provide the respective Authorities with guidance, oversight, and consistency of regulation application; and

**Whereas** the development of the “Agency” is proposed to be funded by municipalities and serves only to add another layer of Government bureaucracy, which by definition will serve only to increase financial burden on member Municipalities; and

**Whereas** one of the stated objectives of the “Agency” is development of a single digital permitting platform. This approach will serve to alienate a significant portion of our residents who do not have access to internet services, due to rural location or due to religious beliefs; and

**Whereas** the SVCA is located in a primarily rural geographic region, that due to the proposed consolidation of 7 Authorities will be seemingly overshadowed by much larger and more densely populated authorities with much larger urban components; and

**Whereas** the SVCA has worked hard to achieve a streamlined and efficient operation and service delivery model, due in large part to the direct oversight by a Board comprised of member municipalities appointed elected officials; and

**Whereas** the proposed consolidated Huron-Superior Authority would be comprised of up to 80 municipalities, 23,000 sq/km and by extension, a Board of Directors that would be so large as to be unmanageable, and would surely result in smaller rural municipalities losing direct control over the operation of the Authority; and

**Whereas** the inclusion of Lakehead Region CA in North West Ontario, could have detrimental repercussions arising from travel distance and geographic differences alone; and

**Whereas** the Saugeen Valley Conservation Authority owns and manages thousands of acres of CA land, many of which are income generating, through user fees, land leases, managed forest harvest, and campground fees. The Amalgamation plan does not address how these assets, which by extension belong to member Municipalities, would be equitably divested. Many of these properties were granted to the Authority, specifically detailing the nature and terms of ownership which legally must be maintained going forward; and

**Whereas** Authorities across the province have liquid assets in the form of trusts, and reserves that belong to member municipalities which run the risk of being swallowed up by large Authorities with larger budgets and resources.

**Now Therefore, be it Resolved** that the Town of Saugeen Shores requests that the Amalgamation into the "Huron Superior Regional Conservation Authority" as outlined in ERO 025-1257 be reconsidered. This in order to maintain the local oversight and protect against as yet unforeseen consequences which will serve to undermine the SVCA's ability to provide regional knowledge-based service delivery and management of properties under our stewardship and ownership; and

**Further** ensure that should the amalgamations go forward that consideration be given to grouping Rural Authorities with similar watershed characteristics together, while grouping more Urban Authorities together for similar reasons; and

**Further** ensure that any transitional costs are fully funded by the Province and not borne by member Municipalities, and that Municipalities are provided with clear funding models in 2026 so as to allow for sufficient planning data for the 2027 budgets; and

**Further** that Saugeen Shores Council urges the Province to engage with affected municipalities and First Nations communities in a meaningful way to collaboratively review the service delivery model and standardize only where necessary paying attention to the different needs of Rural and Urban Authorities. That the Province use this approach rather than develop another level of administration and the associated financial burden that would surely result; and

**Finally** that this resolution be included in the Municipalities ERO response and be forwarded to the:

- Premier of Ontario;
- Minister of Environment Conservation and Parks;
- Bruce County Council;
- All of Ontario's Municipalities;
- Huron Bruce MPP/ Minister of Rural Affairs;
- The board of Rural Ontario Municipal Association;
- AMO; and,
- Conservation Ontario.

**Subject: Sustainable Funding for Police Services Request**

The following resolution, adopted by City Council at its meeting held on November 3, 2025, is forwarded for your consideration.

Moved by Councillor Crowley  
Seconded by Councillor Vassiliadis

**Whereas municipalities across Ontario are required to maintain a police service; and**

**Whereas municipalities across Ontario are required to constitute a municipal board to have policing responsibility for the municipality, or enter into a written agreement for an alternate provision of policing services; and**

**Whereas the City of Peterborough has constituted a municipal board; and**

**Whereas municipalities, across Ontario, with a police service board, are required to "ensure adequate and effective policing is provided in the area for which they have policing responsibility in accordance with the needs of the population in the area and having regard for the diversity of the population in the area" and**

**Whereas police service boards within municipalities where court proceedings are conducted are required to ensure the security of judges, other judicial officials, members of the public participating in court proceedings, ensuring the secure**

**custody of persons in custody who are on or about the premises, including persons taken into custody at proceedings; and**

**Whereas the provision of court security is not part of providing adequate and effective policing; and**

**Whereas the cost of providing court security is a cost of the municipality, regardless of whether all matters originate within that municipality; and**

**Whereas municipalities across Ontario are required to have and maintain critical infrastructure, including appropriate police facilities and equipment, to ensure adequate and effective policing is provided; and**

**Whereas municipalities across Ontario are experiencing increased police operating and capital costs directly related to new compliance and operational standards required under the Community Safety and Policing Act, 2019; and**

**Whereas these cost increases stem from provincially mandated requirements — including training, certification, technology, reporting, and staffing obligations — necessary to bring local police services into compliance with the Act; and**

**Whereas municipalities have no discretion in implementing these measures and limited ability to absorb the resulting financial pressures within existing budgets; and**

**Whereas policing is a provincially legislated responsibility, yet municipalities are bearing the brunt of the costs to implement provincial mandates;**

**Therefore, be it resolved that:**

**Council request that the Province of Ontario provide targeted financial assistance to municipalities to offset any additional costs that are directly and demonstrably incurred as a result of compliance with the Community Safety and Policing Act, 2019, and not general increases to police budgets; and**

**Therefore, be it further resolved that:**

**Council urge the Province of Ontario to review and reform its current police grant programs to ensure a more equitable distribution of funding to municipalities so that communities with growing populations and expanding service demands receive fair and sustainable provincial support; and**

**Therefore, be it further resolved that:**

**Council request that the Province of Ontario provide stable sustainable funding to offset costs associated with the provision of providing court security services; and**

**Support the City of Peterborough – Elect Respect Pledge**

**WHEREAS** democracy is healthy when everyone is able to participate fully and safely and contribute to the well-being of their community;

**AND WHEREAS** we are witnessing the dissolution of democratic discourse and respectful debate across all levels of government and in neighbouring jurisdictions;

**AND WHEREAS** Ontario's municipally elected officials are dealing with increasingly hostile, unsafe work environments facing threats and harassment;

**AND WHEREAS** social media platforms have exacerbated disrespectful dialogue, negative commentary, and toxic engagement which disincentivizes individuals, especially women and candidates from diverse backgrounds from running for office;

**AND WHEREAS** better decisions are made when democracy is respectful and constructive and the voices of diverse genders, identities, ethnicities, races, sexual orientation, ages and abilities are heard and represented around municipal council tables;

**AND WHEREAS** the Association of Municipalities of Ontario's Healthy Democracy Project has identified concerning trends with fewer people voting in local elections and running for municipal office;

**AND WHEREAS** in 2024, female elected representatives from across Halton formed a group called H.E.R. (Halton Elected Representatives) which pledged to speak out against harassment and negativity in politics and call on elected officials to uphold the highest standards of conduct;

**AND WHEREAS** H.E.R. Halton has launched a campaign called *Elect Respect* to promote the importance of healthy democracy and safe, inclusive, respectful work environments for all elected officials that encourages individuals to participate in the political process;

**AND WHEREAS** on June 5, 2025, the Canadian Association of Feminist Parliamentarians launched a non-partisan "Parliamentary Civility Pledge" to encourage all parliamentarians to commit to end workplace harassment and increase civility on Parliament Hill, modelled after the pledge developed in Halton by representatives of H.E.R.

**NOW THEREFORE BE IT RESOLVED:**

**THAT** the Township of Larder Lake Council supports the *Elect Respect* pledge and commits to:

- Treat others with respect in all spaces—public, private, and online,
- Reject and call out harassment, abuse, and personal attacks,
- Focus debate on ideas and policies, not personal attacks,
- Help build a supportive culture where people of all backgrounds feel safe to run for and hold office,
- Call on relevant authorities to ensure the protection of elected officials who face abuse or threats, and
- Model integrity and respect by holding one another to the highest standards of conduct.

**AND THAT** the Township of Larder Lake Council calls on elected officials, organizations and community members to support the *Elect Respect* campaign and sign the online pledge at [www.electrespect.ca](http://www.electrespect.ca).

**AND THAT** a copy of this resolution be sent to the Association of Municipalities of Ontario, Ontario's Big City Mayors, the Federation of Canadian Municipalities, the Office of the Mayor of Burlington, relevant MPs and MPPs, Regional Police, the Ontario Provincial Police and the Royal Canadian Mounted Police.

The Honourable Doug Ford

Premier of Ontario

Legislative Building, Queen's Park

Toronto ON M7A 1A1

Dear Honourable Doug Ford,

**Re: Bill 68, Plan to Protect Ontario Act, and ERO Posting 025-1257**

At the January 12, 2026, Regular meeting, Stratford City Council considered resolutions from the Upper Thames River Conservation Authority and the Long Point Region Conservation Authority regarding Bill 68 and ERO Posting 025-1257 relating to the proposed boundaries for the regional consolidation of Ontario's conservation authorities.

At the meeting, Stratford City Council adopted the following resolution:

R2026-21

**THAT CA-2026-007, being resolutions regarding Bill 68: Plan to Protect Ontario Act, be endorsed.**

A copy of the endorsed resolution has been provided below:

**WHEREAS** the Conservation Authorities Act (1946) enables municipalities to establish local conservation authorities, and when municipalities choose to form such authorities, they assume responsibility for governance and funding through the appointment of a Board of Directors and the provision of an annual levy to cover expenses;

**AND WHEREAS** the City of Stratford established the Upper Thames River Conservation Authority (initially formed in 1947);

**AND WHEREAS** local municipalities currently provide approximately 35% of total conservation authority funding, while the Province of Ontario provides approximately 2% (2026 budget);

**AND WHEREAS** municipalities have governed their respective conservation authorities for decades, tailoring programs and services to local watershed needs, maintaining accountable service standards, and ensuring fair and predictable costs for ratepayers;

**AND WHEREAS** conservation authorities collectively own and manage thousands of acres of land. Many of these properties were entrusted to the UTRCA for long-term protection, stewardship, and the public good, with the expectation that such lands would be cared for by locally governed conservation authorities;

**AND WHEREAS** Bill 68 (Schedule 3) proposes the creation of the Ontario Provincial Conservation Agency, a Crown corporation that would assume governance responsibilities and consolidate Ontario's 36 conservation authorities into seven regional authorities, with municipal cost apportionment yet to be defined;

**AND WHEREAS** the Province already possesses the authority to establish overarching legislation, regulations, and standards through the Conservation Authorities Act and the Ministry of the Environment, Conservation and Parks;

**NOW THEREFORE BE IT RESOLVED THAT** the Council of The Corporation of the City of Stratford calls on the Government of Ontario to maintain local, independent, municipally governed, watershed-based conservation authorities to ensure strong local representation in decisions related to municipal levies, community-focused service delivery, and the protection and management of conservation lands;

**AND FURTHER THAT** while the City of Stratford supports provincial goals for consistent permit approval processes, shared services, and digital modernization, imposing a new top-down agency structure without strong local accountability and governance risks creating unnecessary cost, red tape, and bureaucracy, thereby undermining efficiency and responsiveness to local community needs;

**AND FURTHER THAT** the City of Stratford supports efforts to balance expertise, capacity, and program delivery across the province, and requests that the Province work collaboratively with municipalities and local conservation authorities to determine the most effective level of strategic consolidation to achieve both provincial and local objectives;

**AND FURTHER THAT** a copy of this resolution be sent to:

- the Ontario Minister of Environment, Conservation, and Parks,
- local MPPs,
- Association of Municipalities of Ontario,
- Rural Ontario Municipal Association,
- area Indigenous communities,
- all municipalities,
- Conservation Authorities, and

**Re: Resolution # 2025 - Call on Province of Ontario to Establish an Ontario Airport Capital Assistance Program (OACAP)**

On January 12, 2026, Council of the Town of Fort Frances passed the following into resolution:

*Whereas the Fort Frances Municipal Airport serves the Town of Fort Frances, the District of Rainy River, and the First Nation communities of the Southern Treaty #3 region; and*

*Whereas the Fort Frances Municipal Airport plays a vital role in supporting medevac flights, wildfire response operations, business travel, tourism, and the movement of essential goods for the entire region; and*

*Whereas the termination of scheduled passenger air service in May, 2024 resulted in the loss of eligibility to funding through the federal Airport Capital Assistance Program (ACAP); and*

*Whereas other provinces, including British Columbia, Saskatchewan, and Alberta, have recognized the importance of regional airports by establishing dedicated provincial funding programs, and Ontario currently does not; and*

*Whereas maintaining aging airport infrastructure has become increasingly difficult without predictable provincial support; and*

*Whereas regional airports serve broader provincial and regional interests, and municipalities cannot shoulder the financial burden alone.*

*Therefore, be it resolved that the Council of the Town of Fort Frances hereby calls upon the Province of Ontario to:*

- 1. Establish an Ontario Airport Capital Assistance Program (OACAP) to provide dedicated annual funding for small and regional airports; and*
- 2. Ensure eligibility for a broad range of capital projects, including safety upgrades,*

*equipment replacement, and runway maintenance; and*

*3. Engage municipalities in program design, ensuring local needs and realities are reflected in funding criteria; and*

*4. Recognize the essential role of airports in medevac and emergency services, especially in remote and northern communities.*

**Subject:** FONOM Letter to the Prime Minister: Highways 11 & 17

Dear FONOM Members,

On January 27, 2026, FONOM sent the attached letter to the Prime Minister of Canada regarding the urgent need to modernize Highways 11 and 17; the northern Trans-Canada corridors that are critical to public safety, economic development, and national supply chains.

The letter follows FONOM's recent meetings in Ottawa and reflects the consistent concerns raised by Northern municipalities: unacceptable safety risks, repeated highway closures, and the growing importance of these corridors to trade, critical minerals development, forestry, agriculture, and national resilience.

In our correspondence, FONOM urges the federal government to make a clear, public commitment to partner with Ontario at a 50-per-cent funding level once the Province formally advances this project. We believe that clarity is essential to closing the current trust gap and moving this long-standing priority from discussion to action.

This advocacy is rooted in the principle of equal treatment for Northern Ontario within the national highway system, which is vital to communities, industry, and Canada as a whole.

We are sharing the letter with you for your awareness and continued support as FONOM works collaboratively with municipal partners, the Province of Ontario, and the federal government to advance this critical nation-building project.

As always, thank you for your engagement and for the work you do every day on behalf of Northern communities.

Sincerely,

Dave Plourde

FONOM President

**Subject: A Nation-Building Opportunity for Highways 11 & 17; and a Clear Federal Signal**

Dear Prime Minister,

On behalf of the Federation of Northern Ontario Municipalities (FONOM), I am writing to follow up on our delegation meetings in Ottawa earlier this winter, where representatives from Northern Ontario municipalities met with members of your team, including Zachary Nixon, to discuss the growing challenges facing our 110 member municipalities.

Chief among those challenges is the urgent need to modernize Highways 11 and 17, Ontario's northern Trans-Canada corridors, through a combination of four-laning and the proven 2+1 highway model.

During our Ottawa meetings, we heard a consistent and encouraging message: **if the Province of Ontario were to formally advance this project as a priority, the Government of Canada would be prepared to participate at a 50-per-cent funding level.** That clarity matters deeply to Northern communities.

At present, however, a trust gap remains. The Province has indicated hesitation to proceed without a clear, public federal commitment. In short, Ontario needs to hear plainly and publicly that Ottawa is ready to be an equal partner.

We are therefore respectfully urging you to make that commitment explicit.

This is not an abstract policy discussion. People are dying on these highways. Families, truck drivers, and first responders face unacceptable risk every day on corridors that carry **more than \$200 million in goods daily**, serve as the primary access route to the Ring of Fire, and are critical infrastructure for national defence, emergency response, and continental supply chains.

Highway 11, in particular, is increasingly indispensable: a more reliable east-west trade corridor, less vulnerable to weather disruptions, and central to Canada's critical minerals, forestry, agriculture, and energy future. It is also essential to Canada's internal resilience at a time when secure domestic trade routes matter more than ever.

Your government's Building Canada Act and nation-building criteria speak directly to this moment.
